ABOUT US

QUALITY & TRADITION

E. Wedel is a true love brand for Polish consumers and a must-stock choice for retailers in Poland. We are also a sales leader across multiple confectionery segments nationwide.

We are one of the oldest chocolate brands in Poland, offering a wide range of high-quality confectionery - from chocolate bars and pralines to sweet foam covered with chocolate, candy bars and sweets. Our chocolate is crafted from carefully selected ingredients, including premium cocoa beans that deliver its distinctive, deep flavour.

Our factory has been based in Warsaw since the early days of the brand, operating at its historic site since the 1920s. This is where iconic products such as Ptasi Mleczko® and E.Wedel chocolate have been made for decades.

PRODUCTION IN THE HEART OF POLAND

E.WEDEL

175 YEARS OF HISTORY

Founded in 1851, E.Wedel began when Karol Wedel opened his first confectionery shop on Miodowa Street in Warsaw, quickly winning customers with specialties such as drinking chocolate. In 1930, the brand opened a chocolate factory in Warsaw's Praga district and expanded its portfolio with iconic products including Ptasia Mleczko®, becoming recognised in Poland and abroad. After WWII and decades of state control, the E.Wedel brand returned in 1989 during privatization. Today, as part of Japan's Lotte Group, E.Wedel continues to honour its Warsaw roots while creating chocolate enjoyed by generations.

MODERN FACTORY

E.Wedel's Warsaw factory combines a century-long heritage with a forward-looking, innovation-driven approach. In recent years, the site has undergone major upgrades focused on increasing production capacity and efficiency, including modernisation of technical infrastructure, optimisation of production processes, and the launch of new product and packaging R&D laboratories to accelerate and flexibly implement new concepts. The factory's development is supported by continued investments and long-term growth plans, alongside a stronger focus on sustainability and ESG-aligned operations.

ESG AND QUALITY

High quality is part of our philosophy. The production processes are strictly controlled and certified. The highest quality of Wedel products has its origins from the very existence of the E.Wedel brand. Jan Wedel - the grandson of the company's founder, was very restrictive in the area of hygiene in the factory, but also personally supervised each transport of cocoa beans. He examined the samples, assessed their ripeness and quality, and decided which type of chocolate to use for a given grain.

CERTIFICATES

Quality and food safety are confirmed by certificates and supported by controls at every stage of production, in line with strict hygiene standards. Certification remains a key priority across our supply chain and manufacturing processes.

OUR COCOA BEANS FROM GHANA

From the very beginning, E.Wedel products have been made with cocoa from Ghana. This cocoa beans are valued for their high quality, and the resulting cocoa powder has a chocolate flavour. Perfect for drinking as well as for baking and all kinds of desserts. It gives dishes a unique, unforgettable taste.

Ghanaian cocoa is known around the world for the unique characteristics of its flavour. They are often described as rich and complex, with distinct floral, nutty and sometimes even fruity notes.

Unlike other origin countries where cocoa is dried by mechanical heating process, the Ghanaian farmer dries his produce using natural rays of the sun, as beans are evenly spread on raised bamboo mats. Turning is regular, and every part of the beans is exposed to the sun's rays. Coupled with complete fermentation, Ghana cocoa beans diffuse the best natural chocolate aroma and a perfect dry brown colour appearance.

Ghanaian cocoa beans have established a reputation as the ingredient of preference for quality-oriented chocolate manufacturers.
